MS. TAMANNA SHAIKH

SOFTWARE ENGINEER

+91 8879372270 | Portfolio | shaikhtamanna678@gmail.com

linkedin.com | github.com

OBJECTIVE

Motivated and detail-oriented Computer Engineering student with a strong interest in cybersecurity, digital safety, and technology-driven solutions. Seeking an opportunity where I can apply my skills in programming, machine learning, and problem-solving to support secure digital systems, protect user data, and contribute to a safe and responsible online environment while continuously learning and growing professionally.

Education

Vidyalankar Institute of Technology 2024- 2027

- B.Tech (Pursuing)
- 9.82 SGPI

Government Polytechnic, Mumbai 2021- 2024

- Diploma
- 94.58%-Passed

Fazlani Star English High School 2020- 2021

- SSC
- 84.20%-Passed

Technical Skills

Web & Full Stack Development

- HTML5, CSS3, JavaScript (ES6+)
- React.js, Node.js, Express.js
- MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Django, Flask
- Bootstrap, Responsive Web Design

Cloud & Deployment

- Microsoft Azure (Student Subscription – Project Deployment)
- Vercel (Frontend Deployment & Hosting)
- Cloud fundamentals (compute, deployment, scalability basics)

Machine Learning & AI

- Python for Machine Learning
- Data Visualization
- Generative AI Tools (Basics)
- Machine Learning fundamentals, NLP, Model Training, Data Preprocessing

Programming Languages

- Java, Python, C, C#
- ASP.NET (Basics)

Databases

- MongoDB
- MySQL, Oracle
- Database Management Systems (DBMS)

APIs & Backend

- RESTful API Development
- JSON-based APIs
- Backend integration & testing

Tools & Platforms

- Git, GitHub
- Docker (Basic Understanding)
- VS Code
- Microsoft Office
- Adobe Animate CC

Cybersecurity

- Web Application Security
- Vulnerability Assessment
- Basic Penetration Testing
- Network Security Fundamentals
- Cross-Site Scripting (XSS)
- SQL Injection
- CORS Misconfiguration
- Parameter Tampering

✱ **Soft Skills:** Communication, Problem-Solving, Teamwork, Time Management

Experience / Internships

- **Machine Learning With Python | Naviotech** 13-12-2025-13-02-2026

  Completed Machine Learning with Python training and internship at Naviotech, gaining hands-on experience in ML concepts, projects, and data visualization, with certification. Verify

- **Industrial Training Program(Full Stack Web Development Training (60 hours)) | L&T Skill Trainers Academy, Mumbai** 16-06-2025 – 21-06-2025

  Completed a 60-hour Full Stack Web Development training at L&T Skill Trainers Academy, Mumbai, with hands-on experience in Django, Bootstrap, JavaScript, HTML, and CSS. Verify

- **Full stack Java developer Internship | Techgyan Technologies** 01-01-2024 – 10-07-2024

  It was a 6-month internship program which included HTML, CSS ,MySQL and Java contributing to the development of dynamic projects. Verify

- **Web Development Internship | Oasis InfoByte** 15-08-2023 -15-09-2023

  Completed a one-month web development internship with hands-on experience in HTML, CSS, and JavaScript, developing responsive projects such as a Temperature Converter, Landing Page, and Portfolio. Verify

- **Social Service Internship | MESCO** 29-09-2024 – 25-11-2024

  Completed a 45-hour social service internship with MESCO, supporting community programs, career guidance initiatives, call support, and blood donation campaigns. Verify

PROJECT

- **CyberPhish AI / Security Check System** - **Source Code**

  Developed CyberPhish AI, an AI-based phishing detection and cyber threat intelligence platform that leverages machine learning for malicious URL classification, attack pattern analysis, and trend forecasting. The system provides real-time threat visualization through an interactive dashboard, enabling enhanced situational awareness, proactive defense strategies, and data-driven cybersecurity decision-making.

- **Data Visualization – HR Analytics Project** - **Source Code**

  Developed an HR Analytics & Employee Attrition Prediction Dashboard using Machine Learning and the MERN stack (MongoDB, Express.js, React.js, Node.js), featuring interactive data visualization, attrition risk prediction, ML confidence scoring, and actionable HR recommendations to support data-driven workforce decisions.

- **Estimation of Body Mass Index (BMI) based on Gender, Height & Weight** - **Source Code**

  Developed a Machine Learning–based BMI estimation and data visualization system using gender, height, and weight, featuring an interactive dashboard with real-time analysis, category-wise insights, and a responsive UI built using Flask, JSON APIs, and modern web technologies.

- **Cyber Bullying Detection System** — **Source Code**

  Designed a Cyber Bullying Detection System using NLP and an AI-trained Kaggle dataset, achieving 80% training accuracy, with a dynamic dashboard that visualizes bullying trends across platforms, gender, and countries through interactive graphs.

- **Plagiarism Detection System** - **Source Code**

  Built a Python plagiarism checker using cosine similarity for text comparison, similarity reporting, and CSV export.

- **IT Internal Help Desk System** - **Source Code**

  Built an IT Internal Help Desk System using Django, HTML, CSS, Bootstrap, and JavaScript, featuring authentication, ticket management, and role-based dashboards as part of Full Stack Web Development training.

- **Scan and Order Website** - **Source Code**

  Developed a Scan and Order web application using HTML, CSS, JavaScript, and PHP, featuring secure backend order management and a responsive, user-friendly interface.

- **Student Registration System** - **Source Code**

  Created student registration system by using python in which the student simply fill the form about their details and it gets stored in an Excel sheet which can be accessed by admin .

- **Fast food Billing System** - **Source Code**

  Developed a fast food billing system using C# and ASP.NET in which you can order your preference item and also can cancel, update your order. It also generate Bill for the user and store the bill for future reference.

- **Big Bang Theory Animation** - **Source Code**

  Created an animation video of big bang theory using Adobe Animation CC

Languages

- **Hindi** *Native Speaker*
- **English** *Excellent*

Certificates

- Machine Learning with Python – Naviotech (Training & Internship), 2025 **View Certificate**
- Full Stack Web Development (60 hrs), Larsen & Toubro (L&T) Skill Trainers Academy, 2025. **Verify**
- Full Stack Java Developer Internship, Techgyan Technologies, 2024. **Verify**
- Web Development & Designing Internship, Oasis InfoByte, 2023 . **Verify**
- Certificate of Achievement, Modern Solutions Hub, 2023. **Verify**
- Certificate in Basic IT, NIIT Foundation, 2021. **Verify**
